A Camp Meeting will be held on the

1st and 2nd of Menasha, under the charge of the M. E. Church, commencing Tuesday next.

Don't fail to read the original

articles on our first page. Mr. J. F. Fuller's Voluntary appears in this issue.

E. L. Barlow has some information

in this issue that is of interest to all. See second page.

Atty Genl Howe, U. S. Paymaster

Morgan L. Martin, and Hon. P. H. Smith, passed through this place on Monday.

Thanks to Hon. T. O. Howe and

J. Hanchett for Congressional remembrance.

"An Aerostat" is declined. Don't

attempt poetry, unless you can do other than rhyme.

War Correspondents must be brief,

pointed and concise, or their effusions will be "hid under a bushel" or quart.

Uncle Peter has for sale a new sub-

stitute for coffee, called "Malt Coffee." He sells it for 10 cents per pound.

The city council meets on Saturday

evening. This is the regular monthly meeting.

Prof. L. A. Fuller, assisted by H.

R. Williams, of this city, will give select readings at New London on Saturday evening, 5th inst.

D. G. Fenn, of the 1st Wisconsin

Cavalry, has been promoted to a Lieutenant, and has command of a military post in Missouri. His parents reside in this city.

A musical concert for the benefit of

St. Patrick's Church, will be given at Ripon July 4th, under the direction of Mr. Cuthbert of Appleton.

"Rocks vs Mud," is rather personal

in its nature, so that we must decline its publication. It won't always do to draw a close portraiture of character!

A Tri-Weekly mail is now estab-

lished between this place and Weyauwega, via Wakarusa, Medina and Hortonville. A good route.

In our last, in speaking of the Dart-

ford Band, we mentioned their leader as "Dr. Bond." It should have been Dr. Barnes. This capital Band plays at Ripon on the 4th of July.

The 4th of July in Janesville.—The

people of Janesville have invited Prof. Butler, of the State University at Madison, to be their orator on the approaching 4th of July. Take notice, Appletonians.

"Rush Torrey," son of Dr. I. A.

Torrey of Menasha, died at that place last week, from disease contracted on the battle field. He was formerly a student of our University.

W. S. Warner, more than a week

since, showed us a stalk of winter wheat, grown on his farm this season, that measured over six feet in length! Who can beat it?

Rev. N. Mignault, Chaplain of the

17th Reg. Wis. Vol., arrived in town from the seat of war, on his way home to Green Bay. He comes on furlough to recuperate his impaired health, bringing with him several thousand dollars for the families of the volunteers. Welcome to him!

If any of our business houses wish

to advertise in a good newspaper outside of Appleton, we know of none other we would more cheerfully recommend than the "Green Bay Advocate." For circulation, location and honorable standing, the Advocate has no superior.

At a special meeting of the city

council, held last week, Messrs. Gilmore, Tompkins and Galpin, were appointed to confer with the N. W. R. Co., in reference to the proposed side track extension to the river. They may report at the regular meeting. However we know not.

"Full many a score fathom down

deep in the main?" We imagined we heard the above language from the unlucky teamster who undertook the navigation of that "foreboded mud hole" between Fay & Humphrey's and Water's, after the recent rains. Who is to blame for this outrage?

The Hutchinson Family are coming.

At least a concert troupe styling themselves "Hutchinson Family" will give a vocal and instrumental entertainment at the College Chapel, on Friday, the 11th inst. Brick Pomeroy says they exhibited at La Crosse, that only one of the original family belongs to this concert, and that they are a "regular humbug."

We have correspondence in this

issue from our young friend Curt Mower.

John S. Lester, & Co., our new and

energetic druggists have a complete assortment of fresh, good, and reliable drugs and medicines. Store in Crescent Block. Give them a call. See advertisement in our next.

Harvest is near at hand, money will

be abundant, and farmers will be eager to invest in necessities from our dealers. Among numerous other good merchants in our place, you will find one opposite Fay & Humphrey's, George Payzant, who will fit you out in good style. Remember the name.

We hear of considerable inquiry for

harvest hands, especially from the prairie country south-west of us. We have heard that prices offered range from twelve shillings to eighteen. The great bulk of last year's harvesters have taken the market and are engaged in the bloody harvest of rebellion.

We neglected to state that the degree

of A. M. was conferred on the following persons: Miss Mary A. A. Phinney, Messrs. Samuel Boyd, Albert R. Dyer, J. Judson Jenne, B. F. Miller, J. W. Olmsted, and T. C. Wilson. Our "Cuban Correspondent," it will be seen is among the number.

We have received an "invite" to a

dance at the New London House on the 4th, but cannot attend. The proprietors don't patronize us, so don't even take the Crescent, ergo they can go to—O-shesh for Editorial dancers. Really, if you have occasion to visit New London on the 4th and must shake the dust from your sandals, patronize big-hearted Dan at the Angier.

The outrageous, indecent and im-

proper practices in some churches in this city, of eating as soon as the completion of the sermon and before the close of services, should be arrested. The idea of an entire congregation being disturbed by a rowdily rabble, when there is no necessity for such conduct, ought not to be endured. Either act human or remain at home—Church is not a school to learn manners.

The rains have vastly benefited the

crops in this section. Winter wheat will be ready to harvest in two or three weeks, and will be a heavy crop. Potatoes are backward, but may produce a three-fourth yield. Corn is very timely, and from indications, will be but a half yield. The fruit will be generally good, with the exception of plums, grapes and strawberries. Grapes were frost killed—the others will be about half crops.

The Watertown Democrat says:

"Many farmers in this vicinity have already commenced cutting grass. The hay crop in this State will be heavy and abundant, and the quality as fine as ever was grown. All the meadows, both tame and wild, have a thick and vigorous growth, affording a plenty of food for all the stock raised. New sown grass (i. e. this year) will be first rate in this section, but the old is thin, short and light."

There is hardly a town in the Union

but what have a celebration on the Fourth. Great flaming posters announce a big time at Fond du Lac. Rail Road carries passengers to and from these celebrations at half fare. Neenah and Menasha unite in their celebration this year.

The Board of Trustees of Lawrence

University, at its recent session, elected R. Z. Mason permanent President; the same Professors are continued. Newly elected Board of Trustees—Pres't, Bishop M. Simpson; 1st Vice Pres't, A. Balard; 2d do, R. R. Bateman; Treas'r, C. G. Adkins; Sec'y, J. S. Buck; Members, J. S. Buck and F. B. Doe. P. S. Bennett was re-elected Agent.

Mr. G. McDonald, Sup't of the Im-

provement Co., has handed us the following comparative statement of flour and wheat cleared at the Appleton office from April 14th, to June 14th, each year from 1857 to the present time. It shows a wonderful increase latterly, and each year to come will still greatly magnify the present exhibit. The bulk of wheat and flour from the upper Fox seeking eastern markets is bound ultimately to take this route, as it has been practically demonstrated that money can be saved by shipping via Green Bay. And the grand reason is that water transportation is by all odds the cheapest.

Our efficient Sheriff, George R.

Wood, by authority of the U. S., arrested two of the deserters (old man Withers and son) mentioned in our last, on the first of the week, but the young man, true to his principles, fled before the warrant, and is still at large. The father was put in irons and taken to Madison by the post officer who brought the authority for his arrest. The third deserter, mentioned in our last, Barker, These scoundrels are their names, and all other accessories, when they left.
